

Gold Water Wear

*G*old Water Wear™ is an innovative new brand combining elegance and style with exclusive prints embellished in metallic foils.

Gold Water Wear™ takes swimwear and athleisure wear to the next level by offering something special to the sportswear market.

Everything about Gold Water Wear™ offers exclusivity, from being manufactured in the UK to the exquisite placement prints.

Unique features such as clear TPU straps cleverly avoid tan marks while mesh panels across the waistline create the optical illusion of a two piece- giving Gold Water Wear™ the edge when it comes to design.

No two garments are exactly the same with each print appearing uniquely individual. The primal placement prints are a statement unto themselves, offering today's woman a combination of elegance and sophistication.

Each garment is carefully crafted with comfort and style in mind to enhance femininity in exactly the right places.

Only the finest XTRA LIFE™ Lycra® materials are used to complement our unique prints, giving Gold Water Wear™ garments the quality and longevity you would expect from an exclusive brand.

Each piece is interchangeable from the bandeau bikini with low waist briefs to crop tops with high rise briefs or even leggings to surf in or just run to the shops- Gold Water Wear™ has it covered.

Sizes range from XS to Large with fully lined swimsuits and removable foam push up cups to enhance contours.
